PROFESSIONAL SUMMARY

Salesforce-trained developer with hands-on experience in Apex, Lightning Web Components (LWC), process automation, and REST API integrations, backed by Salesforce Super Badge certifications. Strong debugging foundation across SAP ABAP, Python, and JavaScript. Seeking to apply platform knowledge and analytical problem-solving as a Technical Support Engineer.

TECHNICAL SKILLS

Salesforce Platform: Apex (Synchronous), LWC, Process Automation (Flows), SOQL, REST API Integration, Salesforce CLI, VS Code, Debugging

Languages: C, C++, Python, JavaScript, MATLAB, ABAP

Web & Frontend: HTML5, CSS3, React.js, Bootstrap

Databases & Tools: SQL, Firebase, SAP S/4HANA, Git, Docker, ROS

Soft Skills: Customer-Focused Problem Solving, Critical Thinking, Team Collaboration, Communication

RELEVANT SALESFORCE EXPERIENCE

Salesforce Developer Intern | SmartInternz

Dec 2023 - Jan 2024

- Built and tested **Apex classes/triggers** (synchronous) and developed **Lightning Web Components (LWC)** for reusable UI.
- Debugged code using Salesforce Debugger/logs; built **REST API integrations**; used **VS Code & Salesforce CLI** for deployment.
- Earned Super Badges: **Apex Specialist, Process Automation Specialist, Developer Super Set.**

PROFESSIONAL EXPERIENCE

SAP ABAP Trainee | BIPARD, Patna

Jun 2025 - Jul 2025

- SAP Certified Associate (Back-End Developer, ABAP Cloud); built reports, RICEFW objects, and DDIC customizations; debugged issues via SAP Debugger.

Machine Learning Intern | NIELIT Gorakhpur

Dec 2024 - Jan 2025

- Explored supervised/unsupervised learning, model selection, and bias-variance trade-off for performance optimization.

Project Intern | Dept. of Civil & Infrastructure, IIT Jodhpur

May 2024 - Jul 2024

- Built a Traffic Flow Simulation Model calculating TTC, DST, PET, and GT safety metrics; supervised by Dr. Ranju Mohan.

EDUCATION

B.Tech in Electronics & Communication Engineering, Bihar Engineering University

Dec 2021 - Jun 2025

Senior Secondary (Class XII), Thakur Prasad Singh College, Patna

May 2019 - Mar 2020

PROJECTS

AI-Powered Recruit: Intelligent Job Candidate Screening

- Multi-agent AI system automating CV/JD parsing and candidate shortlisting; local LLM (Ollama/Mistral) via Tkinter GUI. Tech: Python, PyMuPDF, Pandas.

Vehicle Speed Estimation and Traffic Safety Metrics Application

- Real-time vehicle detection and safety metrics (TTC, DST, PET, GT) using YOLO. Tech: Python, OpenCV, NumPy, Pandas.

Mars Rover Opportunity

- Led design of a prototype Mars rover for mobility, obstacle detection, and remote operation.

CERTIFICATIONS & ACHIEVEMENTS

- SAP Certified Associate (ABAP Cloud); NVIDIA Certified - Deep Learning Fundamentals; GitHub Professional Certificate (LinkedIn Learning).
- Finalist, MathWorks Minidrone Competition 2024 (IISc Bengaluru); Selected for SERB Workshop on Post-5G Wireless Connectivity, IIT Patna.
- Student Coordinator (Training & Placement Cell) and Club Lead (Technical & Innovation Club), Govt. Engineering College, Vaishali (2024-Present).
- Languages: English, Hindi, Japanese (N5).
